Commercial	1	16.0%	377
Fairfield	0	19.8%	268
Maurice River	2	12.7%	226
Lawrence	1	18.7%	174
Hopewell	1	39.8%	153
Deerfield	0	30.1%	137

### NOTES:

- Data sources: NJ Department of Health and Senior Services and US Census 2000.
- Children are defined as those 6 years of age and younger.
- Mcg/dL. Unit of measurement for blood lead levels (BLL). A BLL test is the only way to determine if a child has been exposed to dangerous levels of lead.
- Number of unscreened children derived by subtracting the number of children screened from the total number of children living in the municipality (2007).
